| Introduction.....  | 1   |
| 1. Rainbow digits .....  | 9   |
| <i>Exercises</i> .....   | 17  |
| 2. The binary number system and the binomial coefficients .....                    | 19  |
| <i>Exercises</i> .....   | 33  |
| 3. Cantor's number system and the factorial coefficients.....                      | 37  |
| <i>Exercises</i> .....   | 42  |
| 4. The stepnumber system and the spectral coefficients .....                       | 43  |
| <i>Exercises</i> .....   | 54  |
| 5. Stirling numbers of the first kind .....  | 57  |
| <i>Exercises</i> .....   | 69  |
| 6. Stirling numbers of the second kind .....                                       | 73  |
| <i>Exercises</i> .....   | 87  |
| 7. Conversion of stepnumbers into decimals and <i>vice versa</i> .....             | 93  |
| <i>Exercises</i> .....   | 103 |
| 8. Dobinski's representation.....  | 105 |
| <i>Exercises</i> .....   | 114 |
| Appendix: Finite quotient sets and their representations .....                     | 115 |
| <i>Exercises</i> .....   |     |
| Index and Glossary .....   |     |
| Tables of the Bell numbers, binomial coefficients, and the Stirling numbers.....   |     |
| References.....  |     |

**Volume Two** (in preparation)

9. Spectral sequences .....  
    *Exercises* .....

10. Digital exchange .....  
    *Exercises* .....

11. Horizontal and vertical formulas.....  
    *Exercises* .....

12. Periodicity .....  
    *Exercises* .....

13. Paradigms for addition and multiplication.....  
    *Exercises* .....

14. Lattices and natural isomorphisms.....  
    *Exercises* .....

15. Duality .....  
    *Exercises* .....

16. Partitio numerorum .....  
    *Exercises* .....

Appendix: Quotient sets of an infinite set.....  
    *Exercises* .....

Answers and Hints to Exercises.....
